Nice list, thanks for the post.
This will definitely come in handy :)

Glad you found it helpful.
More pins to come shortly.

---

* - Conch - **02-27-2013 06:13 AM**

very nice.
There are a few users here from the UK, Saak2000 is one of them.
I think he has some Sky router pins. I'm interested in seeing them :P

Thanks for the list PandaSec.

If you can organize for him too share them, ill be more then happy to add them to the data base.

* - <u>Haseo™</u> - **03-21-2013 05:35 PM**

PandaŠec The thing's you do for us. Yet another amazing share Thank you oh so much man!
God your good.

you cheeky little monkey :-) ok here you go, hope it will come useful for you some day,

router model Sagemcom
service provider SKY Broadband
year 2012
WPS Pins

18275416
03337714
75243846
40636801
95524993
61684850
42938903
i have another two but they are my babys ;-) sorry

PS: thanks for this beautiful share PandaSec

* - <u>saak2000</u> - **03-21-2013 07:26 PM**

excellent thread, but just to let you know some of routers models you mentioned like below,

MODEL: TD-W8961ND
SSID: wirelessnetwork
BSSID: b0:48:7a:f5:d8:2b
WPS: 61116597

MODEL: BELKIN N+ F5D8635-4v1
SSID: Belkin
BSSID: 00:22:75:AC:3F:DC (WAN)
BSSID: 00:22:75:AC:3F:DA (WLAN)

WPS: 12885381

MODEL: Belkin F5D8635-4v1
BSSID: 94:44:52:2D:95:C3 (WLAN)
BSSID: 94:44:52:2D:95:C5 (WAN)
WPS: 29874590

including lots of D-link as well

is not worth to run a dictionary against them, all what you have to do it convert last 6 from the BSSID from Hexadecimal to Decimal and it will spell the pin for you, here a website can help you with the converting thing, http://www.mathsisfun.com/binary-decimal-hexadecimal-converter.html
